THE STORY BEHIND THE NUMBERS

*Every number represents a life touched,

FY2025 was a year of meaningful service across Charles County. The numbers in this report help tell the story of the agency's work, but they are not the story by themselves. They point to children protected, families stabilized, residents connected to resources, staff supported, and partnerships strengthened.

This report shares the data, but it also tells the larger story of an agency working across programs and partnerships to strengthen families, protect vulnerable residents, and help our community move forward.

STRENGTHENING ADULT SERVICES

Adult Protective Services (APS)

APS responds to reports of abuse, neglect, and exploitation of adults. Our team conducts timely investigations, assesses safety, and connects individuals to services that support well-being and reduce future risk.

Guardianship

When adults cannot make safe decisions for themselves, guardianship helps ensure their personal and financial needs are met. We provide careful case management and oversight to protect rights and promote the least restrictive options.

SSTA Supports and Waitlist Demand

The Social Services to Adults (SSTA) program provides in-home and community supports that help older adults remain in their homes. Demand continues to exceed available funding, resulting in a waitlist. We work closely with partners to prioritize needs and expand access wherever possible.

C.A.R.E. Homes and Collaboration

Our C.A.R.E. homes provide safe, supportive residential options for adults who need a higher level of care. Strong collaboration with community partners and client teams ensures coordinated services and the best possible outcomes for the individuals we serve.
